ON-SITE SERVICE FAQ

1. What is the meaning of fully vaccinated?

Individuals are considered fully vaccinated after they have received the full regimen of Pfizer, Moderna or WHO EUL vaccines (e.g. Sinovac), with additional 14 days for the vaccine to be fully effective.

2. How can I prove that I have been vaccinated?

Just bring your TraceTogether App or Token. You can also use HealthHub App / hardcopy report*. If you are using a hardcopy report, please bring along your government-issued photo ID.

3. Is there on-site PET?

From Jan 1, 2022, the concession for unvaccinated individuals to perform a pre-event test (PET) in lieu of being fully vaccinated would be removed. As such, Trinity has ceased providing on-site PET.
